The new album Papa Legba blends Tribal Death Groove sounds, a unique and mystical genre rooted in tribal music, while delivering powerful and hypnotic riffs.

Through its eight tracks, Ashed Winter delves into ritualistic and spiritual themes, with a focus on the mythical figure of Papa Legba.

## Biography

Formed in 2018, Ashed Winter truly gained momentum with the release of their debut EP *The Prophecy* in 2020.

Initially rooted in Thrash Death, the band gradually evolved, shaping a unique sound that draws from both metal tradition and tribal influences.

This progression allowed Ashed Winter to develop a strong musical identity that is both powerful and mystical.

Their current style, described as Tribal Death Groove, merges heavy rhythms with elements from traditional music, creating a ritualistic and immersive atmosphere.

This quest for authenticity is present in every track, bringing a sacred and timeless dimension to their music.

Since their inception, Ashed Winter has made a name for themselves on the local scene, performing nearly 40 shows.

From local venues to major SMAC stages, the band has shared the stage with heavyweights of French metal, such as Gorod and Benighted, further solidifying their presence in the underground scene.

Today, with the release of their new album *Papa Legba*, Ashed Winter is ready to mark a turning point in their career, unveiling to the public their mature and unprecedented artistic vision.
